PROFESSIONAL SUMMARY

Detail-oriented Data Analyst fresher skilled in Python, SQL, Excel, Power BI, and Tableau, with hands-on experience in data analysis, visualization, and dashboard development through academic projects. Eager to apply analytical skills to support data-driven decision-making.

EDUCATION

St. Andrew's Institute of Technology and Management

Bachelor of Technology (*Computer Science and Engineering*)

Relevant Coursework: Data Analysis, Software Engineering, Operating Systems, Algorithms, Artificial Intelligence

Gurugram, Haryana

July 2023 - July 2027

Vivekanand Sr. Sec. School

Senior Secondary (*CBSE*)

Dharuhera, Rewari

- July 2023

Vivekanand Sr. Sec. School

Secondary (*CBSE*)

Dharuhera, Rewari

- July 2021

WORK EXPERIENCE

IBM SkillsBuild – Project Based Learning Program (with CSRBOX) July 2025 – Aug 2025

- Completed a project-based learning program on Data Analytics and Data Insights in collaboration with IBM SkillsBuild and CSRBOX.
- Gained practical knowledge of data collection, cleaning, analysis, and visualization techniques.
- Worked on interpreting datasets to identify meaningful insights and support data-driven decision making.
- Enhanced analytical thinking and problem-solving skills through hands-on learning and real-world case studies.

PROJECTS

Restaurant Management System — *MERN stack*

- Developed a Restaurant Management System to streamline order processing, billing, and menu management operations.
- Automated bill generation and maintained structured customer and inventory records to improve operational accuracy.

Vrinda Store Sales Analysis — Excel, Pivot Tables, Charts

- Analyzed sales data to find revenue trends, top states, and best-selling categories.
- Built an interactive dashboard with Pivot Tables and Charts for easy business insights and reporting.

Superstore Sales Data Analysis — Excel, Looker Studio

- Performed sales data analysis to track revenue, profit, and top-performing categories.
- Created an interactive dashboard with charts and filters for easy reporting and business insights..

Customer Behavior Analysis — Python, SQL, Power BI

- Performed exploratory data analysis (EDA) on customer shopping data to uncover buying behavior and demographic insights.
- Developed SQL queries and a Power BI dashboard to present customer trends, product performance, and actionable business insights

ADDITIONAL

Technical Skills: Python, SQL, Pandas, NumPy

Data Analysis & Visualization: Data Cleaning, KPI Reporting, Dashboard Development, Exploratory Data Analysis (EDA)

Tools & Technologies: MS Excel, MS Word, Power BI, Tableau, VS Code, MS Powerpoint, GitHub

Soft Skills: Analytical Thinking, Time Management, Team Collaboration, Problem Solving, Attention to Detail, Communication

Certifications & Training: Oracle Analytics Cloud 2025 Certified Professional
